## Integrated DES Soldiers Briefing

### Purpose of Briefing

- To provide an overview of the Integrated Disability Evaluation System (IDES) Program
- To inform Soldiers and their family members of the program

### Our Mission

- **To provide you and your family the best care while going through the Medical and Physical Evaluation Board Evaluation process**
- **To provide you with information that will allow you to make informed decisions throughout the MEB/PEB process**
- **To process your case in a timely and efficient manner**

# Integrated DES Program

- Based on the fact that your military medical care provider has identified a potentially military unfitting medical condition(s) you are being referred to the joint DoD/DVA Integrated Disability Evaluation System (IDES) process
- This is a new disability process that brings together the resources of the two departments to evaluate, following a single comprehensive medical examination, your referred medical conditions and those conditions you may claim. The process is intended to quickly deliver to you a finding regarding your fitness for continued military service and if determined to be unfit provide you with a single sourced disability rating determined by the Department of Veteran's Affairs

# Integrated DES Program

- During the Integrated DES you will be counseled on the process and advised how you can contribute to the development of your case and what your rights and responsibilities are when presented with the results of this disability evaluation process
- The immediate benefits to you include the fact that you will NOT have to undergo examination and evaluation through two separate systems and you will experience a smoother transition to the benefits and compensation available through the DVA immediately upon separation or retirement if determined to be unfit for continued military service

# Responsibilities of PEBLO

- **Initiates your case file within 3 days, once profile has been received from your health care provider**
- **Completing Part I of VA Form 21-0819 within 3 days of notification of need for MEB**
- **Forwards the VA Form 21-0819 to Military Service Coordinator (MSC) within 5 days after completing Part I, along with your medical records**
- **Schedules you for comprehensive counseling sessions throughout the processing of your case**
- **Keeps you informed of the status of your case**

# Responsibilities of VA MSC

- **The Military Service Coordinator (MSC) will assist you in filling out VA Form 21-0819 within 5 days of the decision to start an MEB**
- **Forwards VA Form 21-0819 to Department of Veteran Affairs (DVA) to schedule a single comprehensive physical examination**

# Medical Evaluation Board (MEB) Purpose

- The MEB Process begins when medical retention determination point (MRDP) has been reached or when your physician determines you will not be able to return to duty
- Designed to evaluate your medical condition(s) to determine if you **do or do not meet the Medical Retention Standards IAW AR 40-501, Chapter 3**
- Documents your medical condition(s) and duty limitations
- Refers you to the Physical Evaluation Board (PEB), when the findings and recommendations stipulate you do not meet retention standards or when referred by an MMRB
- **Does not mean you must be found unfit by the PEB or discharged from military service**

## Integrated DES Soldiers Briefing

# If I am found unfit by the PEB Is there any way I can stay in?

- **YES**, you can submit a request for **Continuation on Active Duty (COAD)** or **Continuation on Active Reserve Status (COAR)**
  - <https://www.hrc.army.mil/site/protect/active/epord/coad.htm>
- Your PEBLO will provide you with specific criteria/details related to requesting this
- Generally, HRC is the approval authority for most requests
  - G-1 is the approval authority for AW2 requests
  - NGB is the approval for National Guard

# A Medical Board is **NOT**...

- A “MOS reclassification Board”
  - reclassification is considered by the MOS/Medical Retention Board (MMRB) for Soldiers with P3 who meet retention standards
- You **WILL NOT** sit in front of a panel of board members.  
The MEB is an **informal** process comprised of at least **two physicians** who compile, assess, and evaluate your medical history to determine if your duty is affected by your medical condition

# How long does it take to complete a Medical Board?

Our goal is to complete your MEB within 100 days. However, each case is unique and depending on the complexity, your MEB could take less or more than 100 days to complete.

### MEB Process

- Your PEBLO will schedule an initial meeting with you to complete Part 1 of VA 21- form.
- You will turn in your Health Records to your PEBLO at this time.

# Comprehensive Physical Examination done by the Department of Veteran Affairs

- You will receive one comprehensive physical from the VA
- It is imperative that you list all medical conditions known to you, as this is your opportunity to have all medical conditions addressed by the MEB to determine whether you do or do not meet retention standards and to ensure the VA review for possible compensation for all your listed conditions

### Consults

- If the VA medical examiner determines that you need to be evaluated by another specialty clinic, they will request a **consult** with that clinic. **Please notify your PEBLO or Case Manager**

# Narrative Summary (NARSUM)

The NARSUM is the heart of the MEB

This comprehensive report, written by the MEB physician, provides a “word picture” of your condition, history and status.
